### Office Action

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Hartelius et al. 6,035,857. Note upper back shelf 12 with holes 104,106; planar side portions 40,44 having holes therein, recesses 80. Note also downwardly extending skirt 16 having an inwardly-curving front having a plurality of recesses 46,48,50,52. Note also lower front shelf 14 with holes 28,30 and 32.

Claims 8-10 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Binggely 2,688,408. Note rectangular panels 14 having rectangular panes hingedly attached to each other and having holes therein.

Claims 4-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### RESPONSE TO APPLICANT'S REMARKS

In response to applicant's assertion in paragraph 1 of the "REMARKS", that the '857 patent fails to disclose a front skirt portion or recesses in the front skirt portion, the examiner has **THIS ACTION IS MADE FINAL**. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

attempted to more clearly point out those elements which satisfy the limitations of the claim in the rejection above.

In response to applicant's assertion in paragraph 3 of the "REMARKS", that the '408 patent fails to disclose rectangular panels that are hingedly attached to each other, the examiner would disagree. Applicant rightly points out that the hinge lines serve to assist with the assembly of the utility stand and this satisfies the limitations of the claims.
